DETAILED ACTION

Claims 1-19 are pending in this application.

Election/Restriction

Restriction is required under 35 U.S.C. 121.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

- I. Claims 1-3, 5, 7-19, drawn to the compounds of formula I, their compositions, and methods of use of the compounds; and
- II. Claims 4 and 6, drawn to the compounds of formula 8.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claims 4 and 6 are anticipated by Boyle et al., Chem Abstract 119: 240883. As the recited structure does not make a contribution over the prior art, unity of invention is lacking and restriction is appropriate.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1624

A telephone call was made to Mr. James Kelly on May 9, 2001 to request an oral election to the above restriction requirement, but did not result in an election being made. A written restriction was requested.
